

About Us

Let's talk a little about The Traveling Smile. We were born out of the desire to provide on-site compassionate, preventive dental care to those who cannot or do not want to access dental care in a traditional way. In other words we bring dentistry to you.

Otherwise known as direct primary dental care, we offer our services to the mentally or physically challenged, wheelchair-bound, blind, hospital-bound or those who are agoraphobic.

Some of our primary focuses are oral hygiene instructions, dental nutritional counselling, and preventive dentistry. What we do is give patients and family members the tools to help them better manage some of the challenges of providing at home dental care. As home care dentist, we can provide personalized tips for the patient and the care giver.

THE TRAVELLING SMILE
HOME DENTAL CARE

Dentistry With A Difference

Our Core Belief

We believe in the dignity of dentistry and as such realize that our family of patients must be treated with respect and compassion.

Most of our services are done with portable equipment and devices.

Our Clinical Services

- Fluoride treatments
- Dental cleanings
- Regular dental extractions
- Gum reshaping
- Teeth whitening
- Treatment for selective toothache
- Tooth vitality test
- Denture adjustment
- And more

Personalized Non-Clinical Services

- Denture care
- Managing dry mouth
- Treating canker sores
- Diet and Nutritional Counselling
- Oral hygiene instructions

Mission

Our mission is to offer preventive dental services to those who are housebound, handicapped, in nursing homes, and hospitals. We bring dentistry to you.
